JANUARY, 1916 80th EDITION 44th YEAR

To Our Subscribers

WE take pleasure in offering to you this, the *Eightieth Edition of The Rand-McNally Bankers' Directory,* with the assurance that nothing has been left undone by us in our effort to give you a Directory as nearly perfect as experience, continued vigilance, time and money will make it.

Beginning with the January 1915 edition, we have given you at important points in the United States and Canada, a lawyer, bonded by the American Surety Company of New York. This is further evidence of our policy of giving the best service that money can buy.

If errors are found, as of course some will be in any book of this nature, they are not the result of any lack of painstaking effort on our part. *We make an honest revision every six months, soliciting direct every bank in America for its report,* and continuing such solicitation until we get a report from them or of them from some other source. If we made only one such solicitation, we could save thousands of dollars in postage and manufacturing cost, could issue our Directory at least a month earlier, but would give you *a dishonest product, less than fifty per cent revised.*

We make at least three and in many cases four and five endeavors to obtain information, even using the telegraph and long distance phone, in order to give you what you want and what you must have— *an accurate and reliable book of reference.*

We do not solicit your patronage by using misleading and irrelevant arguments for it. We wish to impress our constantly increasing number of friends and patrons that the claims of The Rand-McNally Bankers' Directory for your patronage are:

1. It is *honestly* revised twice a year.
2. It is *complete and up to date.*
3. It is *beautifully printed* in clear, readable type.
4. It gives to advertisers *a country-wide circulation,* covering a majority of the best banks in America and thousands of the large corporations and lawyers offices.

In Short, it is an Honest Product

We hope that the results of our efforts may meet with your continued approval and we thank you for your patronage.

This Machine Computes Time Interest and Discounts Accurately

Much Quicker Than Mental Calculation

HERE is the machine that does away with mental computation of Time, Interest and Discounts. has won its place in banking and commercial institutions where interest-bearing transactions are negotiated because it saves time and money —*positively.*

It computes Time, Interest and Discounts; gives the number of days between any two dates; reckons the date of maturity and detects whether the date of maturity falls on a Saturday, Sunday or holiday.

It tells all these things by one turn of a wheel—a simple, instantaneous operation.

—and it is absolutely accurate.

If your bank or mercantile institution uses the Meilicke Calculator, you may be sure that the Time, Interest or Discount on your notes has been figured accurately.

We Believe YOU Will Eventually Join These Bankers

THE First National Bank of Chicago, the First Trust and Savings Bank and the National Safe Deposit Company are governed by the same board of directors, and invite the business of responsible people, offering complete, convenient, and satisfactory financial service in every conservative form. These institutions are located in the First National Bank Building, at the Northwest corner of Dearborn and Monroe streets.

The First National Bank of Chicago

organized in 1863, was the eighth national bank to receive the approval of the Federal Government. During half a century its growth has been coincident with that of Chicago and the vast area of which this city is the commercial center. The bank's capital in 1863 was $205,000; today the bank has capital and surplus of $20,000,000. In 1863 the first published statement showed deposits of $273,000; deposits at the end of 1915 were $149,136,960. The bank's business is international in scope and under its divisional organization customers come into close, personal contact with officers familiar with financial requirements in their specific lines.

The First Trust and Savings Bank

organized in December, 1903, with a capital of $1,000,000, confines its operations to savings, investment, and trust business. The success and growth of this bank have been marked. Its capital and surplus now amount to $10,000,000, and its deposits to more than $65,000,000. The savings department allows three per cent interest on savings accounts. Interest-bearing certificates of deposit are also issued. Special and reserve accounts are given particular attention. The Bond Department offers for sale only such securities as have been purchased primarily for the bank's own investment, while the Trust Department acts as trustee, administrator, and in other fiduciary capacities, both for individuals and corporations, under the authority of the law.
